

As a lifetime resident of NC, I wish to share my concerns over the proposed expansion of Low Power FM here. I am a regular listener to K-LOVE radio. I understand that these proposed changes could affect my ability to listen to this national FM service. For many years there was very little Christian Music Broadcasting in my area. In fact, there was only one Christian radio station that I could receive at all. When K-LOVE came to my listening area, I was greatly relieved that I could finally listen to wholesome, family-friendly programming. Music that is upbeat and encouraging is broadcast on this station that I can allow my children to listen to with no worry of them hearing filthy language or lyrics. Our community is greatly blessed through the ministry of K-LOVE. The family-friendly programming is especially important to families, the news reporting is relevant and this service is very important to us. If K-LOVE were displaced by a LPFM broadcaster, I will be once again at a loss for family-oriented radio programming. Please consider the possible detrimental effect on the listeners in my area with your ruling on MB Docket No. 04-233. Thank you.
